

THE SPIRIT OF CREW™

BUSINESS TEAM BUILDING ON HISTORIC LONGBOATS

Columbus, Cook, Shackleton and Vancouver – all used ‘longboats’ to explore, to discover. Join us in discovery on our historic 26-foot longboats, where your company’s team will experience the power of ‘pulling together’ to row, sail and navigate. Our longboat experiences provide exceptional learning opportunities for business groups to develop communication skills, leadership skills, process improvement and professional renewal.

Guided by our licensed captain-instructor and mate, your team will rotate through positions in rowing, coxswain, helmsman, navigator and bow watch. Your crew will set sails, and guide their vessel across the bay. Together, your team will learn new ways to work together on the water, and in pursuit of your company goals.

Group Size: Minimum 8-12, or total 16-24.

Program Length: 6 hours is ideal. Minimum 4 hours. Multi-day experiences allow for even greater learning.

Investment: Varies with length of program and group size. Your team building event can sponsor a youth Puget Sound Explorer program on the water. Inquire for details.

Build a team, and build a dream. The explorers’ sponsors made an investment in their ships and crew. Team building is an investment in your dream. Let’s get your team ‘pulling together’ on the water – and in your business.
